Add-on Decollete \$800 *Mauve Member Price \$720*

Light Skin Resurfacing (less downtime)

Face & Neck \$600 *Mauve Member Price \$540*

Add-on Decollete \$300 *Mauve Member Price \$270*

Add-on Laser Treatments

Long Pulsed YAG | Vascular Reduction

The Long-Pulsed YAG laser reduces vascular lesions, commonly known as spider veins, by using energy to heat, damage, and collapse targeted blood vessels. Technicians can also utilize the Long-Pulsed YAG to remove different types of vascular lesions, including cherry angioma

Complex imperfection (small area) \$300 *Mauve Member Price \$270*

Telangiectasia , cherry angioma

Medical Grade Chemical Peel \$100 *Mauve Member Price \$90*

Reduced signs of aging like fine lines, wrinkles and age spots, improving skin texture and tone, treating acne scars and skin damage, minimizing pores, and naturally stimulating collagen production making the skin elastic and youthful.

Tattoo Removal • Q-Switched Yag/KTP

The Q-Switched Laser is a powerful tool used in cosmetic treatments, particularly for Tattoo Removal. It delivers short, high-intensity pulses of laser energy that break down ink particles in the skin, allowing the body to eliminate them naturally over time. This procedure is adaptable to different tattoo sizes and colors, though certain ink shades may require additional sessions for complete removal.

Small <1" \$200 *Mauve Member Price \$180*

Medium <4" \$400 *Mauve Member Price \$360*

Large <9" \$600 *Mauve Member Price \$540*

Hair Removal • 810-Diode

The Diode Laser is a highly effective method for hair removal. It utilizes focused laser light to destroy hair follicles and achieve long-term hair reduction. This laser is particularly effective for darker hair and can be used on various skin types, offering precise and safe treatment for areas such as the face, legs, back, arms, and bikini lines.
